IMGING 2.3 New Features

Improved IMGING Web Photo Gallery

We've improved the IMGING web photo gallery to provide desk adjusters/inspectors, who may have never been at the inspected property, additional context to the data they are reviewing.

1. Photos albums/folders are organized along the left side of your screen for quick access to different types of photos.

2. As you highlight photos, you'll be able to quickly reference where on the property that photo was taken. You can enlarge this view if you'd like to by clicking on "Enlarge Map".
